NMH SUMMER SESSION

2010
Middle School Program
GAMES MINOR COURSE

Students in this course worked independently and in small groups to practice and improve upon their skills in traditional board games, ping pong and pool, outdoor games, and leadership games. Each student led at least one game of his/her choosing throughout the session. Once per week, the class moved outside to play Ultimate Frisbee with the Ultimate Frisbee team. Game tournaments were organized to help track the progression of each student's improvement.

The students discussed strategy and technique, shared their previous knowledge, and offered one another constructive feedback. They often worked in teams for larger games.

The course met for an hour and a half, four afternoons a week, for the five-week session.

Instructor: Kathryn Hayes
