

This summer, take advantage of the NMH signature “head, heart, and hand” approach to teaching and learning. Move ahead academically, further your skills and knowledge, meet students from around the world, and get ready to excel in the next school year.

College Prep

For students entering grades 10–12.

It's all about focus. You'll choose one subject and dig into it with inspiring teachers, motivated peers, and small classes. You'll make real progress. In fact, we think you'll be amazed by what you can accomplish. Some courses cover a full academic year of content, so there are opportunities to earn credit, prepare to move to the next level, or fill academic gaps.

Choose from credit courses such as Precalculus, College Writing, Chemistry, and U.S. History; enrichment courses; and new this year, Social Justice and Power: Exploring Literature and Oppression, World Religions and Contemporary Issues, and Global Ethics and Climate Change. Online courses are also available for math credit.

Rising Scholars

For students entering grades 7–9.

Experienced and supportive teachers. Small classes. Opportunities to gain confidence and knowledge. This program will help you hone your academic skills in courses that most middle schools don't offer and in small groups where you'll get individual attention from expert teachers.

Build confidence and self-reliance. Living in a dorm allows you the opportunity to grow personally, build lifelong friendships, and become a more confident and more socially aware individual.

Choose from Forensic Science, Marine Biology, Plagues and Pandemics, Social Psychology, Skills in Literature, and many more. Or, choose a 3-week workshop in our brand new Gilder Math and Science Center. Online courses are also available for math credit.

ESOL

For students entering grades 7–12. Online option available.

If you're an international student and want to improve your English skills in order to enroll at an American high school or university, this is the program for you. There are classes for all levels, from beginners to advanced speakers. Students will be placed in the appropriate level through an English-language placement test.

Our experienced ESOL teachers will provide personal attention in small classes and a supportive environment and individual attention. You'll read novels, write essays, give oral presentations in English, do research on American culture, and interact with students from all over the world.

Tuition and Fees

Five-week program:

boarding: \$8,500/ESOL \$8,900 day: \$3,600

Three-week program:

boarding: \$5,950 day: \$2,500

Online: Five-week Virtual Math Academy: \$3,500

Online: Five-week ESOL: \$3,500

Application and Financial Aid Deadlines

The application deadline is March 1, 2022 for financial aid and June 1, 2022 for all other applications. We strongly recommend applying early as classes fill quickly.

Northfield Mount Hermon has a century-old tradition of offering educational opportunities to students of all socio-economic backgrounds. Anyone may apply, although the majority of financial aid is reserved for U.S. citizens. Financial aid is granted based on demonstrated need as well as the student's academic drive and performance. For more detailed requirements, refer to the financial aid application form.
