Collaborating with our professional consultants, Bob Fricker and Barbara Chase of Carney Sandoe, the committee will work diligently to hire NMH's next head of school. They will continue to analyze and consolidate the comments that students, staff, faculty, alumni, trustees, and supporters of NMH have provided over the last 90 days. Then, throughout the summer, they will evaluate candidates with the goal of bringing finalists to campus this fall – when the entire community can show off the best of NMH.

If you have questions or comments about the head-of-school search process, please [contact](#) Jay Kaplan or either one of us. All input is welcome. We assure you that the board of trustees will do its best, as we work with the search committee, to find a truly great next head for this school that we are all so committed to.

Sincerely,
